

## What is PoliAlum?

A ready to use heavy duty acid cleaner for use in cleaning polished aluminum and stainless steel. This product will effectively remove heavy stains, soot and films as well as remove the corrosion and oxidation from the polished surfaces. Contains inhibitors that will protect surface from pitting and etching.

## BENEFITS:

- Cleans Polished Aluminum unlike any other traditional acid product
- Removes oxidation and white rust that are not removed with conventional acids
- Cleans better than conventional acid products and WILL NOT etch surfaces
- Penetrates and removes oxidation and corrosion
- Removes heavy soot and road grime WITHOUT heavy scrubbing
- Much safer to use and handle than conventional acid
- Will not harm glass
- Designed for use on Polished Aluminum and Stainless Steel Surfaces

## DIRECTIONS FOR USE:

Apply PoliAlum to a cool surface under low pressure (40-50 psi). Apply bottom to top with applicator to an area that is manageable, making sure that the product does not dry on surface. To Rinse, apply cold water at high pressure to wet surface, cleaning from bottom up making sure that the nozzle is within close proximity of the surface being cleaned. Always do a final rinse from top to bottom.

## AVAILABLE PACKAGES:

- 1011-5: 5 gallon plastic pail
- 1011-55: 55 gallon plastic drum
- 1011 bulk: bulk tank program

## RECOMMENDED USES:

- Polished aluminum trailers and tanks
- Anodized aluminum wheels
- Restoration and diamond plate
- White rust and pitting

## TECH SPECS:

Color	Clear
Fragrance	Acidic
Form	Liquid
Phosphates	None
Flash Point	212°F
pH	1
Specific Gravity	1.03
Viscosity	Thin
Foam	Moderate
Biodegradable	100%
Shelf Life	1 Year
